DETAILED ACTION

Response to Arguments

1. Applicant's arguments filed 9/9/05 have been fully considered but they are not persuasive. Applicants argue that Dusbabek et al. does not teach or suggest a catheter and stent combination. Examiner disagrees. Figures 1-8, 22-56, Dusbabek et al. disclose catheter and stent combination. Applicant also argues that Dusbabek et al. does not disclose the configuration of the catheter that meets the term corrugated as being "to shape into folds or parallel and alternating ridges and grooves." Examiner disagrees. Figures 45 of Dusbabek et al. reference as illustrated below

These ridges and grooves are parallel.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1, 2, 6 are rejected under 35 U.S.C. 102(b) as being anticipated by Dusbabek et al. (5,968,069). Regarding to claims 1, 2 and 6, Dusbabek et al. disclose a catheter having an elongate body (212), the body (212) comprising a tubular member (216) surrounded the elongate body wherein the walls of the tubular member is corrugated and including a plurality of ribs (fig. 30-33), a stent (218) and a support region (214) is formed over the corrugated section.

Regarding to claims 1 and 6, Dusbabek et al. also discloses a catheter having an elongate body (372, fig. 43-45), the body being a tubular member and the tubular member having at least one corrugated section (354) in the distal region, a support region (358) formed over the corrugated section and a stent (360).

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
